## ABOUT RICHIE

SPEAKER, ENTREPRENEUR & INFLUENCER.

Richie is a serial entrepreneur who owns several businesses including Energy Alliance, the Australian College of Physical Education and Harkham Wines based in the beautiful Hunter valley.

After Richie received a life changing knee transplant from a 14 year old boy, he was inspired to give back in his honour and began the registered charity the 'Hark Angel' Foundation, which has already built 8 schools out of its mission to build 100 schools in developing nations all over the world.

Richie's near-death accident on his motorbike in 2014 saw him battle through eight operations, a knee transplant and a golden staph infection. But this is only the beginning, not the end of his story.

As a speaker, Richie combines his growth through adversity and success as an entrepreneur to capture an audience and inspire rapid change, disruption and the identification of purpose.

*'You only get one chance. And it was an overwhelming feeling of you need to be the best you can be. Play it like it's your last chance'.*
